Marine Geology Volume 127, 1995

Regular Research Papers

New evidence for episodic post-glacial sea-level rise, central Great Barrier Reef, Australia
P. Larcombe, R.M. Carter, J. Dye, M.K. Gagan and D.P. Johnson 1
Late Weichselian submarine debris flow deposits on the Bear Island Trough Mouth Fan
J.S. Laberg and T.O. Vorren 45
Pre-Sangamonian eolianites in the Bahamas? New evidence from Eleuthera Island
P. Kindler and P.J. Hearty 73
Clay minerals as indicators of sources of terrigenous sediments, their transportation and deposition: Bering Basin, Russian–Alaskan Arctic
A.S. Naidu, M.W. Han, T.C. Mowatt and W. Wajda 87
Verdine and glaucony facies from surficial sediments of the eastern continental margin of India
V.P. Rao, M. Thamban and M. Lamboy 105

Special Section: Asian Marine Geology. Edited by H. Tokuyama, A. Taira and S. Kuramoto

Preface 117
Role of subducted lithospheric slab in uplift and subsidence of the northwestern Pacific margins
K. Kobayashi 119
Late Quaternary paleoceanography of the South China Sea: surface circulation and carbonate cycles
P. Wang, L. Wang, Y. Bian and Z. Jian 145
Benthic foraminifera cadmium record from the western equatorial Pacific
N. Ohkouchi, H. Kawahata, M. Okada, M. Murayama, E. Matsumoto, T. Nakamura and A. Taira 167
